BURNS

Including Thermal Injury

The Journal of the International Society for Burn Injuries

VOLUME 5 1978–79

EDITORIAL COMMITTEE

Executive Editor
Mr J. Ellsworth Laing, FRCS,
Odstock Hospital, Salisbury, England.

Senior Editor
Mr Bruce G. MacMillan,
Shriners Hospitals for Crippled Children, Burns Institute, 202 Goodman Street, Cincinatti 45219, U.S.A.

Dr Fortunato Benaim,
Independencia 947, Buenos Aires, South America.

Professor Gosta Arturson,
Swedish Medical Research Council, Burn Centre, University Hospital, S-750-14 Uppsala, Sweden.

Dr Fernando Enriquez de Salamanca,
Felipe II, 18 Madrid 9, Spain.

Mr A. Murray Clarke,
Royal Children's Hospital, Flemington Road, Parkville, Victoria 3052, Australia.

Dr Seiichi Ohmori,
Department of Plastic Surgery, Tokyo Metropolitan Police Hospital, 20-10-41 Fujimi Chiyoda-Ku, Tokyo, Japan.

Dr M. H. Keswani,
Burns Research Unit, Bai Jobai Wadia Hospital for Children, Bombay, India.

Bristol
John Wright & Sons Ltd 1979

Contents of Volume 5

Number 1

Editorial		1
The International Society for Burn Injuries	*John Boswick*	2
Speech delivered at the opening session of the 5th International Congress on Burn Injuries, Stockholm, Sweden, 19 June 1978	*Leo Kaprio*	3
A decade in the field of burn prevention	*M. H. Keswani*	5
Most burns are preventable	*Hidejiro O'Ya and Seiichi Ohmori*	8
The fire hazard of children's nightwear: the Australian experience in developing clothing fire hazard standards	*P. G. Gordon and T. A. Pressley*	12
How to measure the burn-preventive capability of non-flammable textiles: a comparison of the USAARL porcine bioassay technique with mathematical models	*Francis S. Knox III, Thomas L. Wachtel and Stanley C. Knapp*	19
Data for comparative study from a burns centre	*B. A. Waisbren, M. Stern and G. E. Collentine*	30
Length of stay and survival times for burned patients	*J. D. Flora, T. M. Davis and L. D. Roi*	36
The statistical analysis of burn patient data: a historical review	*E. H. Margosches, L. D. Roi and J. D. Flora*	43
Spontaneous human combustion	*M. Thomsen*	54
Statistical analysis of burns at Nagasaki Hospital in Hiroshima	*T. Nagasaki*	60
Development of burn unit guidelines in Canada	*Cheryl J. Leeder*	62
Burn survival in a developing country	*A. T. Ramirez and L. Bajarias*	64
The first burn centre in the Turkish armed forces	*S. Uzel and N. K. Baran*	68
The total number of burn injuries in a Scandinavian population: a repeated estimate	*M. Thomsen, L. Bjørn and B. Sørensen*	72
Patients with healed major burns in hot and cold environments	*Björn Palmer, Sten Jacobsson, Lars Malm and Börje Löfstedt*	79
Child maltreatment by burning	*Jill Fowler*	83
The role of parent groups in the rehabilitation of the burned child	*Jill Fowler*	86
Families of burn victims receive help through regular group meetings	*Cheryl J. Leeder*	89
The health education of inpatients on the prevention and first aid of burns	*T. Papp, E. Abude, É. Brindza, K. Ferenczi, M. Kincs and E. Lipcsei*	92
The education of the burned child in hospital	*E. Read*	94
The burn victim: his psychosocial profile and post-injury career	*Robbi D. Simons, Linda C. Green, Ruth M. Malin, Davis A. Suskind and Hugh A. Frank*	97
The effects of previous thermal injury on adolescents	*A. Murray Clarke and H. L. Martin*	101
Experiences with the exposure method in the management of burns in a developing tropical country	*J. T. Fernando*	105
The treatment of burn shock: results of a 5-year randomized, controlled clinical trial of Dextran 70 *v.* Ringer lactate solution	*K. V. Hall and B. Sørensen*	107
Volume and fluid replacement in the early post-burn period: an animal experimental study	*H. H. Mehrkens and F. W. Ahnefeld*	113
Early fluid and electrolyte changes in infants with minor burn injury	*A. B. Sutherland*	116
Zinc and copper replacement therapy in children with deep burns	*J.-P. Pochon and J. Klöti*	123
Elemental feeding in severe burns: monitoring a regime using Vivonex	*Malcolm D. Eve and John A. D. Settle*	127
Elevated cortisol levels and changes in thymus metabolism in burn trauma	*E. Sajdel-Sulkowska, A. Kumar, G. Clairmont, A. Y. Antoon and J. F. Burke*	136
Abstracts		143
References to Articles		146

Number 2

Fact or fashion? The rationale of exposure method, vaccination and other anti-infective measures
E. J. L. Lowbury 149

Histological investigation of burn eschar and the underlying recipient area in tangential early excision of burns
Daniel J. Hauben and Dan Mahler 160

Papers given at the 5th International Congress on Burn Injuries, Stockholm, June 1978

The effect on the metabolic rate and nutrition of patients with severe burns following treatment with infrared heat
G. Arturson, U. Danielsson and L. Wennberg 164

Variations of metabolic rate in burned patients as a result of the injury and the care
U. Danielsson, G. Arturson and L. Wennberg 169

The relationship of tryptophan and albumin in the acute burn patient: preliminary observations
V. R. Pennisi, V. M. Pennisi, J. Wyatt and A. Capozzi 174

How different therapeutic measures can effect host defense in experimental burns
S. Asko-Seljavaara, B. Sundell, A. Alho and T. Rytömaa 181

The emergence of silver sulphadiazine-resistant *Pseudomonas aeruginosa*
J. P. Heggers and M. C. Robson 184

Bactericidal function of neutrophils in burned patients
Sevgi Yetgin, Mehmet Haberal and Nevzat Bilgin 188

Immunoglobulin G level: a mortality index during the hydroelectric phase of burn injury
Georges Sandor and Monique Schlotterer 192

Antinuclear (ANA), antimitochondrial (AMA) and anti-smooth muscles (SMA) autoantibodies following thermal trauma
M. Dobke, A. Danowska and W. Kondrat 195

A social survey of thermal injuries in South Australian children
S. Kirkham 199

Moving a unit to a new hospital
N. Lunn, H. Storm and E. L. Bruun 202

Epidemiology of burns in Algiers
R. Bouayad Agha and A. Benhamla 204

Thermal injury units in rural settings
M. Neal 206

The epidemiology of burn injuries in the German Democratic Republic
Hans Röding 208

The Cape Town burn profile
M. de Kock 210

Other papers

Abstracts 212

References to Articles 217

Report of a visit to China by Associazione Medica Italia–Cina
Professor Luigi Donati 219

Number 3

Management of feet and ankle burns: orthotic management of pre-existing deformity and protocol for prevention of deformity
D. Nothdurft, G. Pullium and J. Bruster 221

Pulmonary microcirculation following full-thickness burns
M. Hayashi, T. P. Bond, M. M. Guest, H. Linares, C. H. Wells and D. L. Larson 227

The immunoglobulin response to thermal injury and tangential excision
S. Baar and J. C. Lawrence 236

The burn bactericidal index: a bactericidal index specific for burn patients
E. A. Roe 241

Impaired host defence for infections due to complement consumption by tissues changed by heat
M. Heideman and L.-E. Gelin 245

The relationship between host defence variables and infection in severe thermal injury
Alexander J. Wesley, C. K. Ogle, J. D. Stinnett, M. White, M. Morris and B. G. MacMillan 248

Some aspects of neutrophil granulocyte function in burn patients
U. Ransjö, G. Arturson, L. Håkansson and P. Venge 255

The effect of heparin on dermal ischaemia after burning
M. C. Robson, J. O. Kucan, K.-I. Paik and J. P. Heggers 260

Lipid studies after burn injury in man
E. J. Coombes, G. F. Batstone, P. G. Shakespeare and P. L. Levick 265

Radioimmunoassay of ADH in the burn shock period: a preliminary report
D. Mahler, D. Hauben, D. Le Roith and S. M. Glick 269

Reaction of zinc and magnesium following thermal injury
W. Heller, B. Domres, J. Hausdörfer, L. Koslowski and K. Schmidt 274

A synergistic effect between cerium nitrate and silver sulphadiazine
H. S. Rosenkranz 278

Milton for the treatment of burns using the irrigation technique
B. Hirshowitz, A. R. Moscona and E. Lefler 282

Abstracts 285
